We also have extensive drafting experience. Our focus is to deliver high-quality, accurate shop drawings and reports to the customer. ALKET STEEL DETAILING Pvt Ltd is committed to quality and committed to you.

ALKET STEEL DETAILING Pvt Ltd provides construction modeling and structural steel detailing services for the USA, Canada & Australia with the Tekla Licensed Software.

OUR VISION

Our goal is to develop leaders within our organization over time.

We aspire to become an industry leader in partnership with our stakeholders in the next decade.

OUR MISSION

Alket Steel Detailing Pvt Ltd aims to foster advanced employment through an innovative work culture and transfer knowledge to future generations.

We strive to delight our customers by delivering quality results with integrity while minimizing time, effort, and cost.

OUR SERVICES

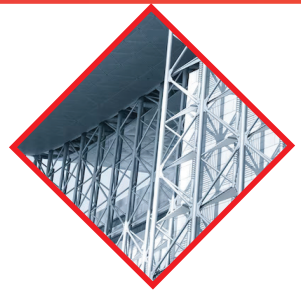

ESTIMATION OR QUANTITY TAKE OFF

To bid on a job accurately, it is crucial to have an appropriate Quantity take-off. Our proficient Estimation/quantity take-off teams carry out this task with great care, ensuring that no piece of steel is left unaccounted for. Our teams are capable of providing take-off even with tight deadlines as we have them available in multiple shifts.

ALKET STEEL DETAILING Pvt Ltd provides precise estimations on time and at competitive costs. We create material take-off according to customer standards.

CONNECTION DESIGN

Our hand-picked structural engineers specialize in doing connection designs do connection designs meticulously and curiously so that they not only satisfy the Engineer of record's requirements but are also cost-effective to the fabricators. We use sophisticated software.

In addition to steel detailing ALKET Steel Detailing Pvt Ltd provides connection design for USA and Canada.
